

Create a Till

Open the Tills menu, and do the following:

- Select Manage and click on Create Till
- Enter the till name (such as Front Desk) and enable the tender types that the till will accept
- Click Create Till. The list of tills will be displayed and your new till will now be included.
- Click on the line for your new till. You will be asked to enter the initial float amount.
- After entering the amount, the POS till page will be displayed.
- You can now access the till at any time through the Tills->Manage menu.
- The next time you log in to ScryPOS, the Tills menu will contain an entry for your new till
