

Create Users & Staff Accounts

One of the next things you may want to consider adding are you store users.

ScryPOS has a tiered user level system that adds some levels of security to your data. It ensures you have privacy and full control over who in your organization can make stock adjustments and view sensitive data like sales and performance metrics.

Head to Settings > Users

The screenshot displays the 'Users' management page in the ScryPOS application. The sidebar on the left contains navigation links: Dashboard, Products, Suppliers, Sales, Tills, Buy Lists (with a badge of 18), Reports, Customers, Sell Prices, Settings (expanded), Store, Deck lists, Users (highlighted), User Interface, and Legal. The main content area is titled 'Users' and includes a 'Create User' button. Below the title is a table listing the current users.

NAME	USERNAME	EMAIL	ROLE	STATUS	CREATED
Adam Betteridge	-	adam@scrypos.com	Admin	ACTIVE	23/07/2026
Craig Test	crs-demo-op	craig@scrypos.com	Operator	ACTIVE	23/01/2026
George Scrypos	-	operator@scrypos.net	Operator	ACTIVE	29/08/2025
Mark ScryDemo	mark-demo	mark@scrypos.com	Admin	ACTIVE	14/01/2026
Paul Scrypos	crs-demo-admin	craig@scrypos.com	Admin	ACTIVE	29/08/2025
Ringo Scrypos	-	manager@scrypos.net	Manager	ACTIVE	29/08/2025

User Levels Summary

Operators: Can process incoming buy/sell lists, view transactions and process POS sales

Managers: Can access inventory adjustment tools

Admins: Can access reporting tools, system settings and can create/modify users
